BREAKFAST BEVERAGE.—Homœopathic practitioners, and the medical profession generally, recommend Cocoa as being the most healthful of all beverages. When the doctrine of homœopathy was first introduced into this country, there were to be obtained no preparations of cocoa either attractive to the taste or acceptable to the stomach: the nut was either supplied in the crude state, or so unskilfully manufactured as to obtain little notice. J. Epps, of London, Homœopathic Chemist, was induced, in the year 1839, to turn his attention to this subject, and at length succeeded, with the assistance of elaborate machinery, in being the first to produce an article pure in its composition, and so refined by the perfect trituration it receives in the process it passes through, as to be most acceptable to the delicate stomach. For general use Epps's Cocoa is distinguished as an invigorating, grateful breakfast beverage, with a delicious aroma. Dr. Hassall, in his work, "Food and its Adulterations," says:—"Cocoa contains a great variety of important nutritive principles—every ingredient necessary to the growth and sustenance of the body." Again: "As a nutritive, cocoa stands very much higher than either coffee or tea." Directions—Two tea-spoonfuls of the powder in a breakfast cup, filled up with boiling water or milk. Secured in tin-lined ¼lb., ½lb. and 1lb. labelled packets, and sold by grocers, confectioners, and chemists. Each packet is labelled "J. Epps, Homœpathic Chemist, 112, Great Russell-street; 170, Piccadilly; 48, Threadneedle-street: Manufactory, 398, Euston-road."
